of the present generation. It is for the Cure of this disease and its attendants, SICE-HEADACHE. BILIOUSNESS, DYS-FEPSIA, CONSTIPATION, PILES, etc., that TUTT'S PILIS have gained a world-wide reputation. No Remedy has ever been discovered that acts so gently on the digestive organs, giving them vigor to as-similate food. As a natural result, the Nervous System is Braced, the Muscles are Developed, and the Body Robust.

Chills and Fover. By plantation is in a manarial district. For several years I could not make half a crop on account of billious diseases and chills. I was nearly discouraged when I began the use of TUTT'S FILLS. The result was marvelous: my laborers soon became hearty and robust, and I have had no further trouble.

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Erregu-fur and Sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature re-quires assistance to enable this organ to

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, yellow dock, with the louide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative medicine known or available to the public. The sciences of medicine and chemistry have never produced so valuable a remedy, nor one so potent to core all diseases resulting from impure blood. It cares Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Bolls, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Ring-worm, Ulcers, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its searching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause detangement and decay. It stimulates and enlivens the vital functious, promotes energy and strength, restores and preserves health, and induses new life and vigor throughout the whole system. No sufferer from any disease which arises from lunquity of the blood need despair who will give Arm's Sarsaramilla a fair trial.

It is folly to experiment with the numerous low-priced mixtures, of cheap materials, and without medicinal virtues, offered as blood-parifiers, while disease becomes more firmly sented. ATER'S Sarsaramilla is a medicina of such concentrated curnitive power, that it is by far the best, cheapest, and most reliable blood-parifier known. Physicians know its composition, and proscribe it. It has been whiely used for forty years, and has won the unqualified confidence of millions whom it has benefited.
